1. This o	pinion contains ir	dications rel	ating to the following iten	ns:				
	Box No. I Basis of the opinion							
	Box No. II Priority							
	Box No. III Non-establishment of opinion with regard to novelty, inventive step and industrial applicability							
	Box No. IV							
		Reasoned statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step or industrial						
	Box No. V	Reasoned statement under Kule 43013.1(a)(i) with regard to hoverly, included applicability; citations and explanations supporting such statement						
	Box No. VI	Certain documents cited						
	Box No. VII Certain defects in the international application							
	Box No. VIII Certain observations on the international application							
2. FUF	THER ACTIO	N						
If a demand for international preliminary examination is made, this opinion will be considered to be a written opinion of the International Preliminary Examining Authority ("IPEA") except that this does not apply where the applicant chooses an Authority other than this one to be the IPEA and the chosen IPEA has notified the International Bureau under Rule 66.1bis(b) that written opinions of this International Searching Authority will not be so considered.								
If this opinion is, as provided above, considered to be a written opinion of the IPEA, the applicant is invited to submit to the IPEA a written reply together, where appropriate, with amendments, before the expiration of 3 months from the date of mailing of Form PCT/ISA/220 or before the expiration of 22 months from the priority date, whichever expires later.								
For	For further options, see Form PCT/ISA/220.

WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No.
PCT/IB04/03228

was filed, unless otherwise indicated under this item. This opinion has been established on the basis of a translation from the original language into the following language which is the language of a translation furnished for the purposes of international search (under Rules 12.3 and 23.1(b)).	Box No. I Basis of this opinion						
This opinion has been established on the basis of a translation from the original language into the following language, which is the language of a translation firmished for the purposes of international search (under Rules 12.3 and 23.1(b)). 2. With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of: a. type of material a sequence listing table(s) related to the sequence listing b. format of material in written format in computer readable form c. time of filing/furnishing contained in international application as filed. filed together with the international application in computer readable form. furnished subsequently to this Authority for the purposes of search. In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.	 With regard to the language, this opinion has been established on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item. 						
2. With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of: a. type of material a sequence listing table(s) related to the sequence listing b. format of material in written format in computer readable form c. time of filing/furnishing contained in international application as filed. filed together with the international application in computer readable form. furnished subsequently to this Authority for the purposes of search. In addition, in the case that more than one version or copy of a sequence listing ant/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.	,						
a sequence listing table(s) related to the sequence listing b. format of material in written format in computer readable form c. time of filing/furnishing contained in international application as filed. filed together with the international application in computer readable form. furnished subsequently to this Authority for the purposes of search. In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.	2. With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed						
b. format of material in written format in computer readable form c. time of filing/furnishing contained in international application as filed. filed together with the international application in computer readable form. furnished subsequently to this Authority for the purposes of search. In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.	a. type of material						
b. format of material in written format in computer readable form c. time of filing/furnishing contained in international application as filed. filed together with the international application in computer readable form. furnished subsequently to this Authority for the purposes of search. In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.	a sequence listing						
in computer readable form c. time of filing/furnishing contained in international application as filed. filed together with the international application in computer readable form. furnished subsequently to this Authority for the purposes of search. In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.	table(s) related to the sequence listing						
in computer readable form c. time of filing/furnishing contained in international application as filed. filed together with the international application in computer readable form. furnished subsequently to this Authority for the purposes of search. In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.	b. format of material						
c. time of filing/furnishing contained in international application as filed. filed together with the international application in computer readable form. furnished subsequently to this Authority for the purposes of search. In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.	in written format						
contained in international application as filed. filed together with the international application in computer readable form. furnished subsequently to this Authority for the purposes of search. In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.	in computer readable form						
filed together with the international application in computer readable form. furnished subsequently to this Authority for the purposes of search. In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.	c. time of filing/furnishing						
furnished subsequently to this Authority for the purposes of search. In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.							
In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.	filed together with the international application in computer readable form.						
or furnished, the required statements that the information in the subsequent of the	furnished subsequently to this Authority for the purposes of search.						
4. Additional comments:	or furnished, the required statements that the information in the succeedant of the supplication as filed or does not go beyond the application as filed, as appropriate, were furnished.						
	4. Additional comments:

Form PCT/ISA/237(Box No. I) (January 2004)

WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No. PCT/IB04/03228

Box No. V Reasoned statement under Rule 43 bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement							
1. Statement							
Novelty (N)	Claims NONE	YES					
,	Claims 1-50	NO					
Inventive step (IS)	Claims NONE	YES					
	Claims 1-50	NO					
Industrial applicability (IA)	Claims 1-50	YES					
Industrial approach, (= -)	Claims NONE	NO					
Claims 1 - 50 lack novelty under PCT Article 33(2) as being anticipated by Hanson et al (US 6,507,865; herinafter Hanson). Regarding claims 1, 2, and 7 - 50, Hanson teaches a method of defining customization for electronic content retrieved over a electronic content from a remote server to a local client (fig. 1; col. 4, lines 47 - 58; col. 5, lines 15 - 47); editing the content at the local client by a user using a WYSIWYO editor, wherein said editor is a standard software used for displaying of content and wherein said editing does not require installation of software requiring user authorization (fig. 6; col. 7, line 60 through col. 8, line 3; col. 12, line 65 through col. 13, line 23); and automatically generating at least one customization definition suitable for automatically generating at least one customization definition suitable for automatically generating at least one customization definition suitable for automatically generating at least one customization definition suitable for automatically generating at least one customization definition suitable for automatically generating at least one customization definition suitable for automatically generating at least one customization definition suitable for automatically generating at least one customization definition suitable for automatically generating at least one customization definition suitable for automatically generating at least one customization definition suitable for automatically generating at least one customization definition suitable for automatically generating at least one customization definition suitable for automatically generating at least one customization definition suitable for automatically generating at least one customization definition suitable for automatically generating at least one customization definition suitable for automatically generating at least one customization definition suitable for automatically generating at least one customization definition suitable for automatically generating at least one customization
